

An Introduction to Crime Prevention Through Environmental Design (CPTED) WEBINAR

Conducted by:
The National Crime Prevention Council

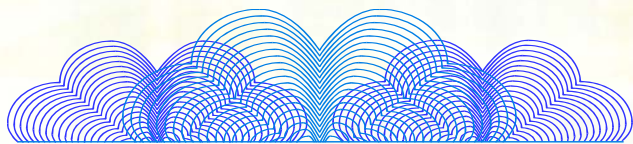

Hosted by:

NEVER GIVE UP!

County of Fresno Gang & Juvenile Delinquency Prevention Initiative

Crime Prevention Through Environmental Design (CPTED) is a strategy used to prevent crime through designing a physical environment that positively influences human behavior. You will learn to the theory behind CPTED and introduced to the four CPTED principles -- access control, natural surveillance, territoriality, and maintenance and how they work. You will discover how CPTED principles can be applied to specific crimes and understand the importance of using an assessment tool as a preventive measure.

Chuck Sczuroski, Senior Trainer

- Expert trainer in CPTED, basic crime prevention, campus crime prevention, gangs, and community mobilization
- Develops curricula, facilitates meetings and trainings all over the country for diverse audiences
- Works extensively with Weed & Seed sites across the country helping these communities implement CPTED principles
- Retired from Pawtucket, RI police department
- Past president of RI Crime Prevention Association
- Provided technical assistance to states wanting to become strong, viable, and self-sustaining crime prevention associations
- founded three police community centers for at risk youth, developed and implemented a nationally recognized high school citizen police academy and mentoring program
